Hi Joni,

It turns out I do need an extension for Rangely Drums. I think Byron had way too many waste sites this past year! The majority of the site work is complete. I need an extension for lingering waste shipments until May 30, 2015.

Thanks,

Joyel

Subject: FW: EPS81302; TO Extensions

Greetings Fellow OSCs,

You all have expiring ERRS TO's below. Can you let me know the following:

- Extend or Closeout?
- If extending, until when and why (a sentence or two for Rich)?

Thanks in advance!

Joni

Joni:

It is my understanding that the EPA EAS system will be inaccessible from the duration of 04/10/15 to 04/20/15.

Knowing we also have an option year period ending 04/10/15 which complicate the issue, I wanted to get you the following TO's that will need extensions.

- 67 - West Haven Mercury - Duc
- 60 - North Cheyenne Asbestos Structures - Joyce
- 57 - Ft. Belknap Wood Treatment - Joyce

- 56 - Colorado Smelter - Tien
- 54 - Rangely Drums - Joyel
- 51 - Gold King Mine – Steve W.
- 47 - California Gulch Mikado Pond - Kerry
- 22 - Parish – Dave R.
- 21 - Aspen Park - Stevenson
- 03 – QAPP
- 02 - Preplanning

Thanks,

Marilyn Smith
